

# Wyoming County, NY Agribusiness

Wyoming County is New York's State's #2 dairy producer and #1 maple syrup producer with significant dairy, food crop and livestock farms on nearly 204,000 acres of land. The region's temperate climate – with plentiful sun and rain – and sustainable farming methods ensure responsible long-term growth.

Wyoming County is within a 10 hour drive of 40% of the combined U.S. and Canadian population. Outstanding opportunities are available in:

- Livestock, food crop and dairy farming
- Mechanical and technical operations support
- Grain, feed and seed suppliers and other ancillary support
- Veterinary support

**FOOD PROCESSING** With an abundance of raw ingredients and low-cost facilities, energy and labor, Wyoming County is positioned for long-term expansion in the food-processing industry and is ideal for:

- Food production businesses that benefit from access to fresh dairy production
- Foods incorporating maple syrup, apples, corn, potatoes, berries and other food crops and livestock
- Small-to-midsize processors specializing in private-label foods
- International corporations looking for a U.S. base
- Food distribution and warehousing

## OVERVIEW

**WYOMING COUNTY, NY**

Rural values. Global vision. Endless possibilities.

## Agribusiness in Wyoming County Continued

Pride in our agricultural heritage is evident in our approach to its future:

- New York State incentives encourage the preservation of land for farming with additional state and county initiatives for production, optimization, employment, and marketing
- Approximately 97% of farms are owned by individuals and families
- Many farmers work in conjunction with green energy and precision agriculture specialists to improve output in environmentally sustainable ways

“Our family has been producing high quality maple syrup in Wyoming County for decades, and we have continually strived to keep pace with advancements in technology to be more efficient and productive. We always envisioned a state-of-the-art maple production facility, that would also serve as an agritourism attraction, and we have realized that dream with assistance from the Wyoming County IDA.”

- David, Ella and Warren Boxler, Owners  
Boxler Maple Farm, LLC
