Required Communications

Generally accepted auditing standards (AU-C 260, *The Auditor's Communication with Those Charged with Governance*) require the auditor to promote effective two-way communication between the auditor and those charged with governance. Consistent with this requirement, the following summarizes our responsibilities regarding the financial statement audit as well as observations arising from our audit that are significant and relevant to your responsibility to oversee the financial reporting process.

Area	Comments
Our Responsibilities with Regard to the Financial Statement Audit	Our responsibilities under auditing standards generally accepted in the United States of America and <i>Government Auditing Standards</i> , issued by the Comptroller General of the United States, have been described to you in our arrangement letter dated December 17, 2018. Our audit of the financial statements does not relieve management or those charged with governance of their responsibilities which are also described in that letter.
Overview of the Planned Scope and Timing of the Financial Statement Audit	We have issued a separate communication regarding the planned scope and timing of our audit and have discussed with you our identification of and planned audit response to significant risks of material misstatement.
Accounting Policies and Practices	<p>Preferability of Accounting Policies and Practices</p> <p>Under generally accepted principles, in certain circumstances, management may select among alternative accounting practices. In our view, in such circumstances, management has selected the preferable accounting practice.</p> <p>Adoption of, or Change in, Accounting Policies</p> <p>Management has the ultimate responsibility for the appropriateness of the accounting policies used by the Center. The Center did not adopt any significant new accounting policies nor have there been any changes in existing significant accounting policies during the current period.</p> <p>Significant or Unusual Transactions</p> <p>We did not identify any significant or unusual transactions or significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus.</p> <p>Management's Judgments and Accounting Estimates</p> <p>Summary information about the process used by management in formulating particularly sensitive accounting estimates and about our conclusions regarding the reasonableness of those estimates is in the attached "Summary of Accounting Estimates".</p>
Basis of Accounting	The financial statements were prepared on assumption that the Center will continue as a going concern.

Area	Comments
Audit Adjustments	There were no audit adjustments made to the original trial balance presented to us to begin our audit.
Uncorrected Misstatements	We are not aware of any uncorrected misstatements other than misstatements that are clearly trivial.
Disagreements with Management	We encountered no disagreements with management over the application of significant accounting principles, the basis for management's judgments on any significant matters, the scope of the audit, or significant disclosures to be included in the financial statements.
Consultations with Other Accountants	We are not aware of any consultations management had with other accountants about accounting or auditing matters.
Significant Issues Discussed with Management	No significant issues arising from the audit were discussed or were the subject of correspondence with management.
Significant Difficulties Encountered in Performing the Audit	We did not encounter any significant difficulties in dealing with management during the audit.
Letter Communicating Noncompliance	We have separately communicated noncompliance identified during our audit of the financial statements which is attached as Exhibit A.
Significant Written Communication Between Management and Our Firm	Copies of significant written communications between our firm and the management of the Center, including the representation letter provided to us by management, are attached as Exhibit B.

Wyoming County Business Center, Inc.
Summary of Significant Accounting Estimates
Year Ended December 31, 2018

Accounting estimates are an integral part of the preparation of financial statements and are based upon management's current judgment. The process used by management encompasses their knowledge and experience about past and current events and certain assumptions about future events. You may wish to monitor throughout the year the process used to determine and record these accounting estimates. The following describes the significant accounting estimates reflected in the Center's December 31, 2018 financial statements.

Estimate	Accounting Policy	Management's Estimation Process	Basis for Our Conclusions on Reasonableness of Estimate
Allowance for Uncollectible Notes	Management estimates the collectability of their note portfolio on a note by note basis based on conditions that exist at the time of the audit.	Management reviews note payment history and correspondence with borrowers in evaluating the allowance for uncollectible notes every year.	Management's process to estimate the allowance for uncollectible notes appears reasonable.

Recently Issued Accounting Standards

The GASB has issued several statements not yet implemented by the Center. The Center's management has not yet determined the effect these statements will have on the Center's financial statements. However, the Center plans to implement all standards by the required dates. The Statements which might impact the Center are as follows:

Summary of GASB Statement No. 87, *Leases*

This Statement was issued in June 2017 and will be effective for the Center beginning with its fiscal year ending December 31, 2020. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities.

The requirements of GASB Statement No. 87 are effective for financial periods beginning after December 15, 2019. Earlier application is encouraged.
